Day 3 – Gorilla Tracking – Bwindi Impenetrable Forest.

Today, in the rainforest, made famous by Dian Fossey, you will have a close encounter with the endangered Mountain Gorillas of Uganda. These amazing creatures only exist in this particular volcanic mountain range and there are a limited number of permits issued to visit them each day. Good hiking boots, some rain gear (it is a rainforest after all) the ability to hike in a forest are required.

The gorilla troops move constantly through the forest making it difficult to predict how much time the gorilla tracking will require. It can range from 3 hours to 7 depending on the location of our assigned gorilla troop.

*Note - permits are in high demand so they must be booked well in advance.

Accommodations – Mountain Gorilla Lodge (Full Board)
